SPRING COLLECTION — 2021 —

Marc Jacobs once put it beautifully in an interview: 'Clothes mean nothing until someone lives in them'. What is a garment without someone who wears it with pleasure? Summum Woman's Spring 2021 collection is a real feel good collection. Packed with garments you'll never want to take off, thanks to the fine fit and fabrics. Items that will make you feel comfortable wherever you are and whatever you do. It all starts with the warm colour palette. Brown, yellow and a hint of blue play a rustic game with the classic black and white. An important addition to the collection are our organic cotton denims; which use 90% less chemicals, 95% less water and 40% less energy. A great feeling from all perspectives. Of course this also applies to our denim skirts, since skirts will remain essential for this summer. The countless styles range from paperbag waist to maxi plissé with print. What goes for the skirts and trousers also goes for the tops. Lots of different styles with the accent on the sleeves. From ruffles to bat sleeves and from puff sleeves to wrinkle effects. Of course we don't forget the Summum classics like the suit, which this season also comes in a new colour; alpaca.

The sales period is from 3rd August to 25th September.
 The spring collection 2021 will be delivered from January onwards.

CAPSULE 1

Classy, cosy and cool

After a turbulent year now is the time for peace and security. In the first capsule collection warm shades of brown, soft blue and refined white nuances such as ivory and shell are leading the way. It gives the knitwear an instant feeling of cosiness. The brown shades alpaca and walnut have also been used in the graphic prints and for the tough looking cargo pants. By adding black and white to the palette, everything looks fresh and light. Sky blue is the perfect accent colour and gives the knitwear a contemporary feel. In addition to the coloured knits, blue is also found in the denims. They form a classy combination together with the tops, and have that perfect dose of cool thanks to the mix of colours.

SEASONAL Trends

1

CROSS THE LINES

Fair's fair, stripes are always right and never boring. Especially when you combine them in a new way, from head to toe. Like a multi-colour, wide striped knit worn on light coloured trousers with small vertical pinstripe. Or a skirt and blouse combo with the same striped pattern, except where the stripes on the blouse are horizontal, they go all around the skirt. The classic shirt mixes different striped fabrics like a patchwork. And on sweaters stripes appear as a detail on collars.

3

SOFT AND ROUGH

Tough and feminine don't just alternate with each other this season. Better than that, they complement one another in our wardrobe, with surprising new looks as a result. Think short soft cardigans, romantic blouses and muscle Tees, that match just as easily with a skirt as with cargo pants, and yet create a completely different feel. The organic cotton denims and skirt fit this trend effortlessly.

2

STATEMENT SLEEVES

The details are on and in the sleeves this season. By playing with volume and accents, new shapes come to life. Great for endless variations. Think puffed sleeves on sweaters, wide set bat sleeves, a broader 'muscle' shoulder sleeve for T-shirts, next to ruffles, pleats and contrasting cuffs. This trend is seen throughout the season and comes alive in all capsules.

CAPSULE 2

Here comes the sun

Bye bye blues! Let the sun in. We have left the blue tones behind and replaced them with the sunny shades of bright ochre and sweet vanilla. These colours have a true summer feeling, that make black, ivory, walnut and shell shine in a new light. Abstract designs of flowers and plants in black and white prove why this is the ultimate colour combination. Shell and ivory are favourites in this capsule, especially for trousers and jackets. The latter comes with a surprising colour block effect. Camisoles with a hint of lace or the wrap tops in bright ochre which inspire many more looks.

SEASONAL Trends

1

THE POWER OF PRINTS

Nature is a great source of inspiration for the colours and prints which are full of flowers, leaves and animals. Sometimes with lots of details in the patterns, sometimes completely abstract. In the new season we wear prints not as an accent, but mixed together. For example, a jacket with matching trousers or a top with a similar printed skirt. The exuberantly printed dresses and kaftans have fancy details like sporty cuffs. They often come with a matching belt, so you can decide whether you go for tight or loose look. The most stunning print this season is the laser cut broderie anglaise on the leather dress.

2

LET IT FLOW

This season we are loosening up. Relaxed fitted kaftans, flowy skirts and even wider trousers. The printed palazzo pants are totally summer proof, and for she who dares; they can be worn with a matching top. The ankle-length pants with a split pair nicely with the kaftan, although a difficult choice considering the many attractive shorter sweater options.

3

YES TO THE DRESS

A good dress is worth its weight in gold. As always with Summum Woman, the dress appears in multiple guises. Short, but never mini, with a matching belt and elegant neckline. Or perhaps you'll fall head over heels with the new silhouette, the ankle-length dress? Pretty with sandals, cool with sneakers and later in the year, amazing with boots and a jacket or cardigan.

CAPSULE 3

Warm tones and cool shades

Capsule 3 contains a palette of alternating warm and cool colours. Like a summer breeze over heated patio tiles, the colours soft jade and ivory, terra and straw complement each other. Tops fit loosely over the body. From fantasy printed blouses to short kaftans, which you can wear as a dress or over wide trousers in the same shade. A more casual look is created by the chino-style denims and skirts, which come in several colours. Sporty with sneakers and a white T-shirt, on which all the colours from capsule 3 come together in the form of an abstract print. Or elegant with a blouse of multi-fleur print. The spotlight in all capsules is on the sleeves. From fine knits with a small puff sleeve to a slightly wider sleeve on a blouse, to a wrinkle effect at the cuffs.

SEASONAL Trends

1

BOHO DAYS

Ankle-length dresses with flowy sleeves. A soft organic cotton, wide leg denim with a vintage wash. Romantic white tops with puffy sleeves. This Boho trend delivers nothing but true summer vibes. If you like you can take the Boho part to the max by accessorizing with leather sandals, studded belts and wicker baskets. Even toned down in a casual way, you can hear summer calling.

2

TERRA IS THE NEW BLACK

Ask any woman for her favourite colour in her wardrobe and guarantee, the answer will be black. It is not without reason black is one of our main colours in the collection. Just as versatile, but slightly more surprising are hues of brown, like the warm terra. Wear them tone on tone or mix them with the light ivory and soft jade to accentuate the intensity of the colour. Worn with a more outspoken shade like sky blue from capsule 1, will lead to an exciting game of contrasts.

3

CLOSE-UP

The final trend of the season may be the least noticeable, but has a spectacular effect. It is all about the small details on the garments, giving them even more personality. A ruffle on white denim. A contrasting hemline on vintage jeans. A sweater with sleeves knitted in another stitch. Or gold foil on a white T-shirt. If you look closely, you will find countless details that give the designs just that little bit more.

AWARE LABEL

The below fabrics are part of this seasons AWARE label:

JERSEY:

30218: 100% organic cotton

This fabric is made from organic cotton. The cotton is grown under strictly controlled conditions, without genetic modification and without the use of toxic pesticides or other harmful chemicals.

30219: 70% organic cotton, 28% polyester, 2% elastane

This fabric is made using organic cotton. The cotton is grown under strictly controlled conditions, without genetic modification and without the use of toxic pesticides or other harmful chemicals.

30212: 95% organic cotton, 5% elastane

This fabric is made from organic cotton. The cotton is grown under strictly controlled conditions, without genetic modification and without the use of toxic pesticides or other harmful chemicals.

30214, 90310, 30236: 95% EcoVero viscose, 5% elastane

The viscose in this fabric is EcoVero TM viscose by Lenzing, a yarn made from wood pulp sourced from sustainable, FSC-certified or PEFC-certified forests. The closed loop production process used to make this yarn recycles both water and solvents. Please visit www.ecovero.com for more information.

30229: 50% cotton, 50% EcoVero modal

This fabric is a blend of cotton and modal. Just like viscose, modal is made from cellulose fibres from beech trees. EcoVero modal by Lenzing has a positive CO2 footprint. Lenzing's closed loop production process keeps both emissions and water consumption to a minimum. In comparison with cotton, the production process for Lenzing's modal requires considerably less land and 10 to 20 times less water.

ACCESSORIES:

8377-8380-8381: 95% cow leather, 5% other

All of Summum's belts are made in the Netherlands using leather that complies with the European REACH regulation for the use of chemicals. The leather used is residual waste from the European food industry and is processed and coloured by a Dutch tannery. The buckles and other metal parts are nickel free.

KNIT:

7s5567-7815: 61% recycled cotton, 16% polyester, 14% polyamide, 5% metallised fibre, 4% other

The yarns for this knitwear are made up of 61% recycled cotton and bears the IOAS Global Recycled Standard certificate. By processing such a high percentage of recycled cotton, this yarn has a significantly reduced impact on the environment.

CMT:

11361, 11362: 100% viscose

This fabric is woven from ENKA® viscose, a filament yarn made from wood comprising 40-50% cellulose - the most common organic and recyclable plant material. ENKA® uses only cellulose from wood with the FSC label sourced from local, legal and sustainably managed forests in Sweden, Finland, Estonia and Scotland. ENKA® works with a self-developed policy that promotes sustainable forest management and protects old-growth forests. Please visit www.enka.de for more information.

11380: 65% recycled polyester, 35% polyester

No less than 65% of the polyester yarns in this material are made from recycled polyester. Recycled polyester is made from post consumer recycled plastic such as PET bottles, making it a greener and more sustainable alternative to standard polyester yarns. As well as shrinking the world's plastic waste mountain, the production process requires less water, less use of chemicals and less energy.

BLUE DAZE:

5083, 5088: 94% cotton, 5% polyester, 1% elastane/83% cotton, 15% polyester, 2% elastane

'E-flow' technology was used to create the wash for these two denims and is the only method of its kind with a sustainability certificate. When washing and finishing, all kinds of chemicals are transferred to the garment using a lot of water, and in conventional methods, this highly polluted water is then removed as waste water. With advanced E-flow technology, many high-quality finishing effects can be achieved with as much as 95% less water, 90% fewer chemicals and 40% less energy.

4s2110-5090: 97% organic cotton, 3% elastane

This organic denim is the most sustainable item in Summum's Spring 2021 collection. It is made from 97% GOTS-certified cotton and the most sustainable technology is also used for the wash. The leading international quality label Global Organic Textile Standard (GOTS) sets high requirements for both the production of the fibres and the processing of the fibres into items of clothing and other textiles. The final product may only be called organic if at least 95% of the material used was cultivated and processed organically.

4s2075-5081: 60% organic cotton, 39% cotton, 1% elastane

This denim fabric is made up of 60% organic cotton. For the wash, only recycled water was used.
